PROFESSIONAL EXPERIENCE

Freelance Web Developer

January 2025 - Present

- Developed and maintain business web applications using Laravel, CodeIgniter, PHP, MySQL, JavaScript, HTML5, and CSS3.
- Built and customized e-commerce platforms using WordPress, WooCommerce, and Shopify, including payment gateway integrations and performance optimization.
- Manage deployment, hosting, SSL, DNS, cPanel, VPS, Cloudflare, and production support activities for client websites and applications.

- Collaborate with clients and internal teams to gather requirements, estimate work, resolve issues, and deliver maintainable solutions.
- Improve application performance, database queries, page speed, security, and reliability across production projects.

Kreata Global Digital Media Pvt

Senior Web Developer | Kochi | October 2021 - December 2024

- Developed multiple web applications using Laravel and CodeIgniter, handling frontend development, backend logic, and MySQL database design.
- Developed an attendance management system that automated employee attendance tracking and reduced manual administrative effort.
- Built promotional and campaign websites for GCC clients, including Hayatna, Igloo, Quanta, and Tiffany Biscuits, ensuring responsive design and cross-browser compatibility.
- Designed and developed brand websites for the GCC market using WordPress, Laravel, and CodeIgniter, with scalable architecture and optimized performance.

Rawdot Technologies

Web Developer | Kochi | January 2020 - September 2021

- Developed a custom web-based Inventory Management System using CodeIgniter (MVC) to track stock levels, manage products, monitor inventory movements, and generate reports.
- Designed and implemented a structured administrative dashboard to improve inventory control and streamline daily operations.
- Developed and delivered multiple business websites using WordPress and static web technologies (HTML, CSS, and JavaScript).
- Customized WordPress themes, integrated content, implemented responsive designs, and performed basic website performance optimization.

WebIndia Solutions

Web Developer | Kochi | May 2019 - December 2020

- Contributed to backend module development for Cochin Shipyard Limited using CodeIgniter (MVC), supporting administrative workflows and structured data management.
- Developed a custom Financial Management Web Application for a church committee in Canada to manage income, expenses, and generate financial reports with role-based administrative controls.

- Developed and delivered multiple dynamic websites and e-commerce platforms, including custom theme development, plugin integration, and payment gateway integration.
- Optimized application performance and implemented secure, scalable deployment practices across multiple projects.

Genius Group Global

Web Developer | Kochi | January 2015 - January 2019

- Contributed to the development of an ERP application designed to manage and streamline the certificate attestation process, supporting multiple departments and workflow stages.
- Developed backend modules using PHP (CodeIgniter) and MySQL, enabling secure data processing, workflow tracking, and document management.
- Enhanced existing modules, resolved production issues, and participated in deployment activities to improve system reliability and performance.

Genius Group Global

IT Admin | Kochi | January 2015 - December 2015

- Provided IT support for desktops, laptops, printers, and network devices.
- Installed, configured, and maintained Windows systems and business applications.
- Resolved hardware, software, and network issues for end users.
- Assisted in system maintenance, user account management, and routine IT operations.
